

# Chemical Consultants INCORPORATED

**71-C**

**Graphic Press Wash / Spray & Wipe**

## General Description

71-C is designed for all inks, especially vinyl, epoxy, solvent-base, enamel and UV inks. This product will perform as a press wash when changing colors between jobs and/or as a screen opener for continuous printing. 71-C will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary. 71-C immediately liquifies the ink and dries quickly, leaving no film or oily residue.

## Advantages

- **Fast Drying**
- **Emulsion Safe**
- **High Solvency**
- **Low Odor**
- **High Load Capacity To Reduce Usage**
- **Mesh Safe**

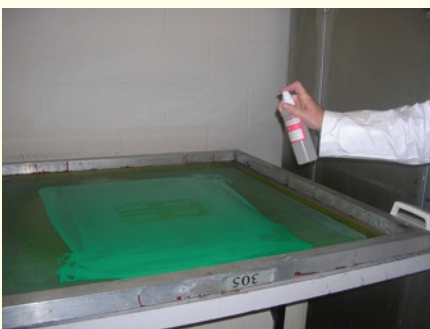

### **Quick Tip:**

To cut down on the number of rags it takes to clean a screen, use a non absorbent scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.

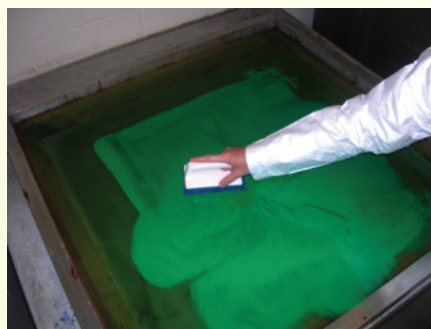

## Application

**First card excessive ink from the screen.**

71-C can be applied manually with a rag, spray bottle, or pneumatic pump systems.

Step 1. Spray 71-C on squeegee side of screen.

Step 2. Scrub ink with a non-absorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.

### **Sizes Available:**

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 Gallon Drum
