910 T.X.

Textile Ink Degradent / Screen Wash

General Description

910 T.X. is a water soluble ink degradent. It is highly effective on multi-purpose (solvent-based), plastisol, poster, and UV inks. 910 T.X. will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

910 T.X. can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, immersion cleaning processes, and automatic reclaiming machines. It can also be applied manually with a scrub pad, spray bottle or pneumatic pump systems.

Advantages

- Low Odor
- High Solvency
- High Load Capacity To Reduce Usage
- High Flash Point / Non-flammable
- Non-Hazardous
- Mesh Safe
- Will Not Attack Cyanoacrylate (Instant) Adhesives
- Multiple Applications

Application

Always card excessive ink from screen. Use one of the following applications.

4 x 4 Stainless Steel
Recirculating Booth

RECIRCULATING WASH:

Card excessive ink from the screen. 910 T.X. can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.

Sizes Available:

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 gallon drum

Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

INK WASH-OUT AT THE SINK:

Card excessive ink from the screen. Apply 910 T.X. to ink side of screen. Use a non-abrasive scrub brush or pad to agitate ink on both sides of screen. Finally, rinse away all residue using high pressure water.
