## AQ-WASH

Low VOC Ink Wash / Recirculating Wash

### General Description

AQ-Wash is a water soluble ink wash designed for the removal of plastisol, water based, UV and conventional inks. AQ-Wash is also ideal for the clean up of squeegees and flood bars. This product can be re-circulated or applied manually using one of the following applications.

### Advantages

- Non-Hazardous
- High Solvency
- Low Odor
- Low VOC (Volatile Organic Compound)
- High Load capacity to reduce usage
- Used As A Recirculating Cleaner Or To Wash Parts
- Mesh Safe

### Applications

Always card excessive ink from screen. Use one of the following applications.

### SCAQMD Bulletin:

AQ-Wash is a water soluble ink degradant which meets the requirements of Southern California AQMD to be compliant of 100 grams VOC per liter or less.

**4 x 4 Stainless Steel  
Recirculating Booth**

### Recirculating Wash:

Card excessive ink from the screen. This product can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.

### Sizes Available:

Quart

Gallon

5 Gallon Pail

55 Gallon Drum

### Ink Wash-Out At The Sink:

Card excessive ink from the screen. Apply to ink side of screen. Use a non-abrasive scrub brush or pad to agitate ink on both sides of screen. Finally, rinse away all residue away using high pressure water.

### Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.
