BLAST - "ONE SHOT"

INSTANT SCREEN OPENER - Aerosol

General Description

Blast - "One Shot" is formulated to instantaneously dissolve ink in the image area. It is ideal for use with plastisol, multi-purpose (solvent-based), UV and vinyl ink systems. Blast - "One Shot" works fast and effectively to reduce down time and speed up production.

Quick Tip:

Change spraying distance from the screen to vary application pattern.

Advantages

- Fast Drying
- Works On A Variety Of Inks
- Instantly Dissolves Ink
- Ideal For Opening-Up Image Area
- Leaves No Residue
- High Solvency
- Mesh Safe
- Does Not Contain "Ozone Depleting Chemicals"

Application

*Shake can prior to use.

Step 1.

Point valve and spray from a distance of 6-8 inches while holding a rag underneath the screen.

Step 2.

Wipe both sides of the screen with a rag until all residue is gone. Repeat if necessary.

Sizes Available:

15 oz. Can

12 x 1 Can Case
