CG-3

Press Wash

General Description

CG-3 is best suited for clean-up of plastisol ink. Use this product as a screen opener, as a screen wash when saving the emulsion, and as a press wipe during continuous printing. This product is also an excellent cleaner for the removal of pallet or belt printers' adhesive.

This product can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, or precision immersion cleaning processes. It may also be applied manually by a brush or a hand held sprayer. **CG-3** is fast drying and leaves no film or oil residue so that the clean surface is in excellent condition for tape adhesion.

Advantages

- High Solvency
- Low Odor
- Mesh Safe
- Emulsion Safe
- Low Vapor Pressure
- High Load Capacity To Reduce Usage.
- Multiple Applications

Application

Always card excessive ink from screen. Use one of the following applications.

Quick Tip:

To cut down on the number of rags it takes to clean a screen, use a non absorbent scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.

PRESS WASH AND SCREEN OPENER

Step 1. Spray **CG-3** on the squeegee side of screen.

Step 2. Scrub ink with a non-absorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.

426D SS

Recirculating Wash:

*Card excessive ink from the screen. **CG-3** can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.*
