- Low VOC (Volatile Organic Compound)
- High Load Capacity To Reduce Usage
- · Can Be Used To Wash Parts or Recirculating Cleaner
- Mesh Safe

#### **Applications**

Always card excessive ink from screen. Use one of the following applications.

CAL-Wash is a water soluble ink degradent which meets the requirements of Southern California AQMD to be compliant of 100 grams VOC per liter or less.

4 x 4 Stainless Steel **Recirculating Booth** 

#### **Recirculating Wash:**

Card excessive ink from the screen. This product can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.

Sizes Available:

Gallon Quart

4 x 1 Gallon

**5** Gallon Pail

55 Gallon Drum

Ink Wash-Out At The Sink:

using high pressure water.

Card excessive ink from the screen.

Apply to ink side of screen. Use a

non-abrasive scrub brush or pad to

agitate ink on both sides of screen.

Finally, rinse away all residue away

**Quick Tip:** 

**Always pressure** wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse wate .
