

# Chemical Consultants INCORPORATED

## Citra-Paste

## Textile Ink Degradent

### General Description

Citra - Paste is a semi-viscous, water soluble cleaner. It is designed for the removal of a variety of inks without attacking the emulsion. Citra - Paste's top priority is plastisol and water-based inks. This product can be used for total removal of inks before reclaiming the screen. For reclamation, this product can be diluted 50/50 with water and still maintain excellent cleaning power.

### Advantages

- Water-Based
- Low Odor
- Low VOC (Volatile Organic Compounds)
- High Solvency
- High Load Capacity To Reduce Usage
- Will Not Attack Cyanoacrylate (Instant) Adhesives
- Concentrated

#### Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

### Application

#### **Step 1.**

Spray **Citra-Paste** on both sides of the screen.

#### **Step 2.**

Scrub screen with a non-abrasive pad or brush until all ink is completely liquified.

#### **Step 3.**

High pressure rinse the screen - starting at the bottom. Reverse screen and high pressure rinse. Continue washing off any blockout that remains.

#### Sizes Available:

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 Gallon Drum
