ER/30

Emulsion Remover

General Description

ER/30 is designed for removal of all photo polymer, diazo, and capillary film emulsions. ER/30 will immediately liquify and break down the emulsion. Dramatically increase the speed of the reclaim procedure.

Advantages

- Easy To Use
- Immediately Breaks Down Emulsion
- Low Odor
- Safe On All Types Of Mesh
- Non-Hazardous
- Biodegradable / Drain Safe

Quick Tip:

Use an emulsion remover that has plenty strength to break down the emulsion.

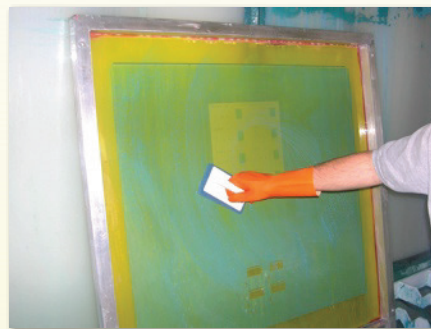

Emulsions, that are not properly broken down, will leave excessive residue on the mesh.

Application

ER/30 can be applied by a sponge, pad, spray bottle, or pneumatic pump systems.

Step 1. After removal of ink, block-out, and tape, apply ER/30 to a wet screen (both sides).

Step 2. Scrub screen with non-abrasive pad or brush.

Step 3. High pressure rinse - starting at bottom.

Sizes Available:

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 Gallon Drum
