

# Chemical Consultants INCORPORATED

**ER/35®**

**Emulsion Remover**

## General Description

ER/35® is designed for the removal of all photo polymer, diazo, and capillary film emulsions. ER/35® will immediately liquify and break down the emulsion. Dramatically increase the speed of the reclaim procedure.

## Advantages

- Easy To Use
- Immediately Breaks Down Emulsion
- Low Odor
- Safe On All Types Of Mesh
- Non-Hazardous
- Biodegradable / Drain Safe
- Concentrated

## Application

ER/35® can be used in concentrated form, or it can be diluted up to 1 to 4 parts of water. ER/35® can be applied by a sponge, pad, spray bottle, or pneumatic pump systems.

### Quick Tip:

Use an emulsion remover that has plenty strength to break down the emulsion.

Emulsions, that are not properly broken down, will leave excessive residue on the mesh.

**Step 1.** After removal of ink, block-out, and tape, apply ER/35® to a wet screen (both sides).

**Step 2.** Scrub screen with non-abrasive pad or brush.

**Step 3.** High pressure rinse - starting at bottom.

## Sizes Available:

Pint	Quart	Gallon	4 x 1 Gallon
5 Gallon Pail	30 Gallon Drum		55 Gallon Drum
