## GR-1

## Graphic Ink Degradent / Screen Wash

### General Description

GR-1 is a water soluble ink degradent. It is highly effective on lacquer, legend, enamel, epoxy, multi-purpose (solvent based), poster, UV, and vinyl inks. GR-1 will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

GR-1 can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, immersion cleaning processes, and automatic reclaiming machines. It can also be applied manually with a scrub pad, spray bottle, or pneumatic pump systems.

### Advantages

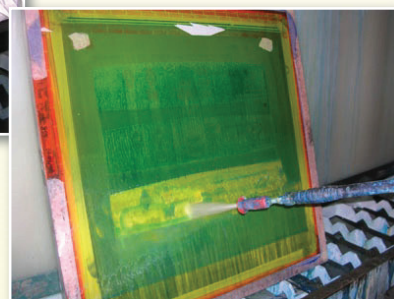

- Low Odor
- High Solvency
- High Load Capacity To Reduce Usage
- High Flash Point / Non-Flammable
- Mesh Safe
- Multiple Applications

### Applications

Always card excessive ink from screen. Use one of the following applications.

**4 x 4 Stainless Steel  
Washout Booth**

### ***Ink Wash-Out At The Sink:***

*Card excessive ink from the screen. Apply GR-1 to ink side of screen. Use a non-abrasive scrub brush or pad to agitate ink on both sides of screen. Finally, rinse away all residue away using high pressure water.*

### Sizes Available:

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 Gallon Drum

### **Quick Tip:**

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.
