IW-108 — Multi-Purpose Screen Wash

General Description

IW-108 is a water soluble ink degradent. It is highly effective on plastisol, multi-purpose (solvent based), poster, UV and vinyl inks. IW-108 will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

IW-108 can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, immersion cleaning processes, and automatic reclaiming machines. It can also be applied manually with a scrub pad, spray bottle, or pneumatic pump systems.

IW-108 is also an excellent plastisol ink haze (ghost) remover and aggressively removes image stains from the mesh.

Advantages

Low Odor
- High Solvency
- High Load Capacity To Reduce Usage
- High Flash Point / Non-Flammable
- Mesh Safe
- Multiple Application

Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

Applications

Always card excessive ink from screen. Use one of the following applications.

Ink Wash-Out At The Sink:

Card excessive ink from the screen. Apply IW-108 to ink side of screen. Use a non-abrasive scrub brush or pad to agitate ink on both sides of screen. Finally, rinse all residue away using high pressure water.

Haze Remover:

After ink and emulsion has ben removed, spray *IW-108* on both sides of the screen. Scrub screen both sides with a non-abrasive brush or pad. Allow product to sit for a few minutes (depending on severity of stain). High pressure rinse screen working from bottom and moving upwards.

4 x 4 Stainless Steel Recirculating Booth

Recirculating Wash:

Card excessive ink from the screen. This product can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.

Sizes Available:

| Quart | Gallon | 4 x 1 Gallon | 5 Gallon Pail | 55 Gallon Drum |
