

GENERAL DESCRIPTION

ProChem® 470TX is designed for plastisol and UV inks when reclaiming your screen, or for removing the ink only and saving the screen.

ProChem® 470TX is emulsion and capillary stencil safe. It will protect the fabric from deep stains or ghosting from the image print, which makes it much easier when complete reclamation of the screen is necessary. This product can be recirculated or applied manually using the following steps.

ADVANTAGES

- High solvency.
- Low odor.
- Mesh safe.
- Emulsion safe.
- Low vapor pressure.
- High load capacity to reduce usage.
- Multiple Applications.

APPLICATION

Always card excessive ink from screen. Use one of the following applications.

PRESS WASH AND SCREEN OPENER

Step 1. Spray ProChem® 470TX on the squeegee side of screen.

Step 2. Scrub ink with a non-absorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.

Quick Tip:

To cut down on the number or rags it takes to clean a screen, use a non absorbent scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.

RECIRCULATING WASH

Card excessive ink from the screen. ProChem® 470TX can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.
