

GENERAL DESCRIPTION

ProChem® CAL-SOLV is designed for all inks, especially vinyl, water base, epoxy, enamel and UV inks. This product will perform as a press wash when changing colors between jobs and/or as a screen opener for continuous printing. ProChem® CAL-SOLV will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

ADVANTAGES

- Fast Drying
- Emulsion safe
- High solvency
- Low Odor
- Low VOC (Volatile Organic Compound)
- High load capacity to reduce usage
- Mesh Safe

APPLICATION

First card excessive ink from the screen.

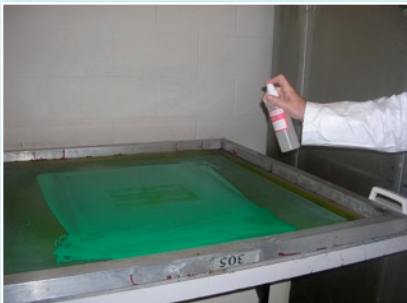

Quick Tip:

To cut down on the number or rags it takes to clean a screen, use a non absorbent scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.

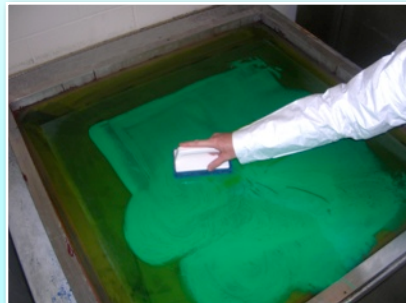

SCAQMD Bulletin:

CAL-SOLV is a low VOC Press Wash / Spray & Wipe which meets the requirements of Southern California AQMD to be compliant of 100 grams VOC per liter or less.

PRESS WASH AND SCREEN OPENER

Step 1. Spray CAL-SOLV on the squeegee side of screen.

Step 2. Scrub ink with a non-absorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.
