RTU

Textile Ink Degradent

General Description

RTU is a semi-viscous, water soluble cleaner. It is designed for the removal of a variety of inks without attacking the emulsion. RTU top priority is plastisol and water-based inks. This product can be used for total removal of inks before reclaiming the screen. For reclamation, this product can be diluted 50/50 with water and still maintain excellent cleaning power.

Advantages

- Water-Based
- Low Odor
- Low VOC (Volatile Organic Compounds)
- High Solvency
- High Load Capacity To Reduce Usage
- Non-Hazardous
- Will Not Attack Cyanoacrylate (Instant) Adhesives
- Concentrated

Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

Application

Step 1.

Spray RTU on both sides of the screen.

Step 2.

Scrub screen with a non-abrasive pad or brush until all ink is completely liquified.

Step 3.

High pressure rinse the screen - starting at the bottom. Reverse screen and high pressure rinse. Continue washing off any blockout that remains.

Sizes Available:

Quart

Gallon

4 x 1 Gallon

5 Gallon Pail

55 Gallon Drum
