SR-2000

Premium Spot Remover

General Description

SR-2000 is a premium spot remover formulated for the removal of cured plastisol, water-based ink, and flock adhesive. This fast-drying formula removes ink quickly without allowing the ink to bleed and spread. SR-2000's ultra clean and pure ingredients ensure that "yellowing" of the fabric does not occur.

Quick Tip:

If ringing or spotting occurs, adjust spot gun tip to widen spray area.

ADVANTAGES

- **No "Ringing"**
- **No "Yellowing"**
- **Fast Drying Time**
- **Dissolves Inks And Adhesives**
- **Premium Pure Components - No "Fillers"**
- **No Ozone Depleting Chemicals**
- **Compliant with most major companies restricted substance lists (RSL)**
- **Chlorinated and Bromine solvent replacement**

Flammable Product - Appropriate equipment and storage must be utilized.

Application

Direct fluid through the soil until completely flushed away.
