"THE PINK STUFF"

Abrader / Dehazer / Degreaser

General Description

"The Pink Stuff" is a viscous ghost/image stain remover and degreaser that is designed for all ink systems. This product removes stains with less noticeable odor and works better than most paste stain removers. "The Pink Stuff" can be used for degreasing and wetting all types of screen fabrics, including polyester, nylon, and stainless steel. "The Pink Stuff" leaves the fabric free of oils, contaminants and residues, which will ruin the emulsion coating. "The Pink Stuff" will reduce the incidence of "pin-holes" and "fish-eyes" when coating your screen with emulsion.

"The Pink Stuff" is perfect for use on brand new fabric (mesh). Its micro-particles will abrade (roughen) and prepare new mesh for production.

Quick Tip:

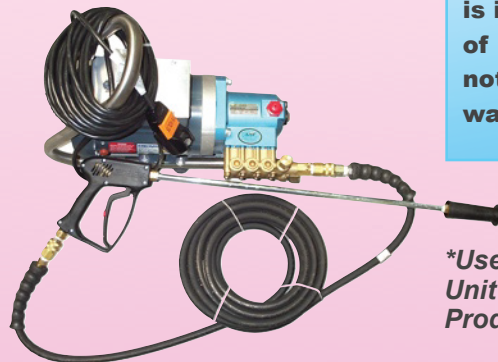

For Dehazing:
Flood rinse (hose pressure) the screen prior to the high pressure step.

This will eliminate the product from being atomized in the air (blow back).

Advantages

- Easy to use
- Biodegradable / Drain Safe
- Pleasant odor
- Low VOC (Volatile Organic Compound)
- High Load Capacity to Reduce Usage
- Non-Hazardous / Non-Corrosive
- Mesh Safe
- Contains a Proprietary Mesh Protector
- Ideal for use on new fabric

1022 HP
1000PS.I.

Quick Tip:

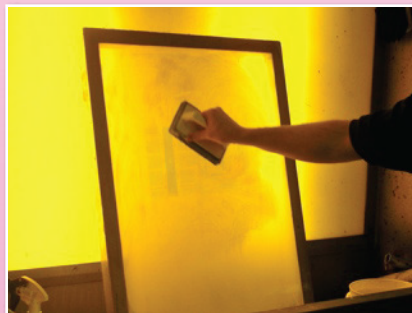

For Degreasing:
Be sure to Flood rinse the screen well. In this step, it is important to think of high volume and not high pressure water.

**Use of a High Pressure Unit Greatly Increases Product Performance.*

Application

Step 1. Apply "The Pink Stuff" to both sides of the screen.

Step 2. Scrub screen with non-abrasive pad or brush. Allow product to sit on screen for up to 10 minutes.

Step 3. High pressure rinse - starting at bottom.

Sizes Available:

Pint Quart 4 x 1 Quart Gallon 5 Gallon Pail 55 Gallon Drum
