TOP BOND PolyGRIP

TOP BOND PolyGRIP is a double-sided polymer adhesive sheet that's a perfect replacement to standard screen printing pallet adhesives. The long lasting sheet is a more effective and cost-saving adhesive that can be reused over and over again without having to constantly re-apply traditional adhesive. Stick it down once and you're ready to go!

Advantages

- No adhesive residue transfer to textile.
- Lasts a recommended 4-6 months.
- Works on 100% Cotton and Polyester, 50/50 blends, and Light/Medium weight fleece.
- Easy application and removal
- Time saving, faster and more efficient than traditional adhesive.

Application

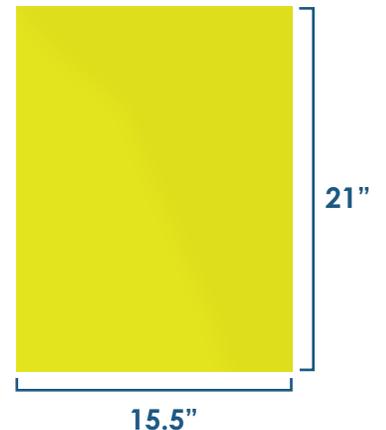

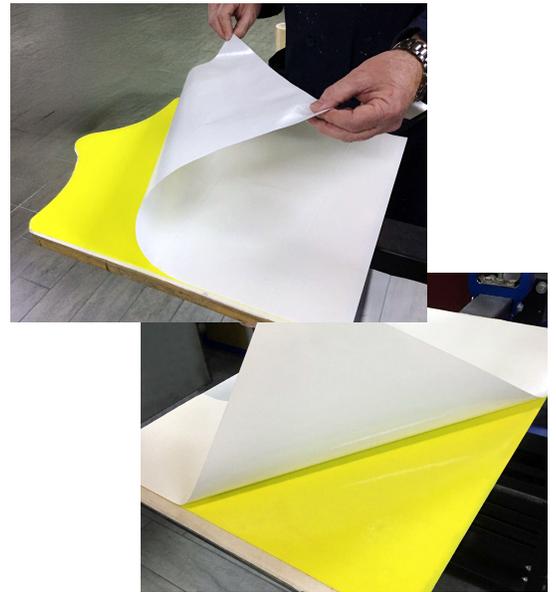

- Make sure your pallet is clean and has no dirt, dust, or residue.
- Remove the liner from the pallet side, and line up the sheet's edge on one side on the pallet.
- Starting from the edge, slowly press down and use a squeegee or something similar to apply the adhesive onto the pallet, try to avoid creating bubbles.
- For small pallets make sure to cut TOP BOND PolyGRIP down to size.

Clean Up

- If printed on by mistake use a press wash to remove ink followed by water.
- To remove lint spray lightly with water and scrub with demo brush.

Quick Tip:

Optional: Apply masking tape or pallet tape across the pallet first for easier removal.

AVAILABLE IN: 21" x 15.5" Sheet
