XL INK WASH

Graphic & Textile Ink Degradent / Screen Wash

General Description

XL Ink Wash is a water soluble ink degradent. It is highly effective on plastisol, multi-purpose (solvent based), poster, and UV inks. XL Ink Wash will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

XL Ink Wash can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, immersion cleaning processes, and automatic reclaiming machines. It can also be applied manually with a scrub pad, spray bottle, or pneumatic pump systems.

Advantages

- Low Odor
- High Solvency
- High Load Capacity To Reduce Usage
- Mesh Safe
- Will Not Attack Cyanoacrylate (Instant) Adhesives
- Multiple Applications

Applications

Always card excessive ink from screen. Use one of the following applications.

INK WASH-OUT AT THE SINK:

Card excessive ink from the screen. Apply **XL INK WASH** to ink side of screen. Use a non-abrasive scrub brush or pad to agitate ink on both sides of screen. Finally, rinse away all residue away using high pressure water.

Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

**4 x 4 Stainless Steel
Recirculating Booth**

RECIRCULATING WASH:

Card excessive ink from the screen. **XL INK WASH** can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.
